

# Beyond the Casino Floor: Protecting Your Gaming Enterprise

Cyber Risk Exposure Management for Commercial Gaming  
Decision-Making

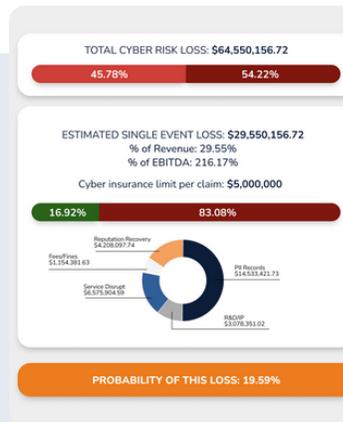

## What Is Maxxsure?

Maxxsure is a **Cyber Risk Exposure Management** platform designed for **commercial gaming operations** that translates cyber and AI-driven threats into financial exposure across your casino, hotel operations, F&B, retail, entertainment venues and loyalty programs.

The platform evaluates security controls, operational processes, governance maturity, and emerging AI threats to calculate probable maximum loss and prioritize actions that reduce the greatest financial exposure first.

## Core Platform Capabilities

- **Financial Exposure Analysis:** Shows potential loss across casino, hotel operations, F&B, retail, entertainment venues and loyalty programs.
- **Continuous Risk Monitoring:** An end to end program that consistently refreshes to align with gaming operations and what's at risk.
- **Financial Prioritized Remediation:** Identifies the actions that reduce the most financial risk
- **Board-Ready Reporting:** Board-ready visibility that show how you are doing, what's working, and where gaps remain
- **Insurance Alignment -** Guidance for gaming-appropriate cyber coverage that addresses industry-specific exposures and positioned for successful underwriting, so coverage matches your true risk

5

Reasons Why Your  
Gaming Enterprise  
Needs Maxxsure

1. A Casino Breach Threatens **Your Entire Integrated Resort**
2. **AI-Driven Attacks** Have Changed the Game
3. Boards and Gaming Commissions **Demand Financial Clarity**
4. Interconnected Systems **Create Cascading Risk**
5. Gaming Compliance Requires **Risk-Based Cybersecurity Programs**
